How is our Multi-trip Travel Product distributed?

Our Products distribution is in line with our distribution strategy:

- To provide our Multi-trip Travel Product to customers who are eligible for the cover in accordance with our application acceptance and/or renewal acceptance criteria.
- By insurance intermediaries/ brokers (distributors) who we have approved and monitor on an ongoing basis. For our target market customers with busy lifestyles our assessment determines this to be their preferred channel and by email and/or telephone.
- Sales can be on an advised or a non-advised sale basis. The product is relatively straightforward and the target market customers generally familiar with travel insurance products. However, distributors must ensure the sales are only to the identified target market customers and with all necessary information provided to them to enable informed choices/decisions.

Our Insurance Product Information Document (IPID) produced in standardised format and easily understood, details the benefits, features and limitations of the cover. The Policy wording provides full details.
